|--------------|---------------------|-----------------------|-------------------|
| • JavaScript | • Nodejs            | Algorithms            | System (DBMS)     |
| • Java       | • Expressjs         | • Operating Systems   | • OOPS Concept    |
| • React      | • Html Css          | • Networking          | • Web Development |
| • mongoDb    | • Data Structures & | • Database Management |                   |

## PROJECTS

### Airbnb Clone | [Live site here](#)

02 2024

- **Full-Stack Development:** Developed an Airbnb clone, contributing to both front-end and back-end using **Express.js**, **Node.js**, and **EJS** for dynamic views.
- **Database Management:** Designed and integrated **MongoDB** for handling user data, listings, and bookings.
- **RESTful API Implementation:** Created robust RESTful APIs for data operations such as user authentication, property listings, and booking management.
- **Deployment:** Hosted the project on **Render**, managing server setup and ensuring smooth deployment.

### EMAIL AUTOMATION THROUGH AI | [Live site here](#)

04 2024

- **Automaion Tool :** Built an AI-driven email automation tool that dynamically responds to incoming emails based on user interest, enhancing communication efficiency.
- **AI Response :** Integrated **Cohere AI** to generate personalized email replies based on user interest .
- **Email Integration :** Configured email handling via **Google Auth** for Gmail and setup **Graph Api** for Outlook .
- **Queue Management :** Employed **BullMQ** and **Redis** to manage email processing queues, ensuring scalability and efficient task handling.

### HEALTH CHOICE HOSPITAL | [Live site here](#)

06 2023

- **Designed and developed** a fully responsive hospital website using **HTML**, **CSS**, and **JavaScript**.
- Implemented **user-friendly features** like **appointment scheduling** to improve patient interaction and ease of use.
- Ensured the website is **responsive across all devices**, providing a seamless experience on desktops, tablets, and mobile phones.
- Gained hands-on experience with **front-end development**, responsive design, and enhancing user experience.

## EXPERIENCE

### Freelancer

06 2024 – Now

#### React Devloper

- Delivered a project where I worked on **handling APIs** using **React**.
- Integrated **API data** into the frontend, ensuring smooth communication between the backend and the user interface.
- Collaborated with the client to understand their requirements and successfully implemented the API integration.

## EDUCATION

---

**Govt. Holkar Science College Indore**  
*Bachelor of Computer Applications - **CGPA** - 7.40*

**06 2022 – 05 2025**  
*Indore, India*

**Govt. Model School Bagli**  
*M.P Board - PCM - **Percentage** - 81%*

**06 2021 – 04 2022**  
*Bagli, India*

## TECHNICAL SKILLS

---

**Languages:** Python, Java, C, C++, JavaScript, SQL, NoSQL

**Developer Tools:** VS Code, Postman

**Technologies/Frameworks:** GitHub, ReactJS, Redux, NodeJS, ExpressJS, Git, Mongo

## EXTRACURRICULAR

---

**Cultural Club**  
*Core Team Member*

**10 2023**  
*Indore*

- Managed the **Computer Science department team** for an inter-department competition.
- Coordinated tasks, ensuring smooth collaboration and participation in the event.
- Developed teamwork and leadership skills by organizing and guiding the team.

## CERTIFICATIONS

---

- MERN - Apna College
- Java + Dsa - Apna College
